Call for expression of interest for up to two (2) positions, one (1) Post-doctoral research associate (*part-time*) and one (1) Electronics and hardware design engineer (*part-time*) in the Institute of Computer Science (ICS) Foundation for Research and Technology – Hellas (FORTH)

Position(s): two (2) positions for the Ecoscale

Project: ECOSCALE (GA-671632), funded under H2020 FET-HPC.

Desired starting dates: 1/4/2018.

Duration: 6 months with possibility of extension.

Location: Heraklion, Crete, Greece.

Opening date: 1/3/2018

Closing date: 15/3/2018.

Reference: "EcoScale-01-Mar2018"

Description:

We seek two experienced members for our team, one member with Post-doctoral research associate (*part-time*) and one member with Electronics and hardware design engineer (*part-time*), with background in European Research Projects. The candidates will participate in the R&D activities of FORTH in the context of the project ECOSCALE: Energy-efficient Heterogeneous COmputing at exaSCALE. In order to reach exascale performance current HPC servers need to be improved. Simple scaling is not a feasible solution due to the increasing utility costs and power consumption limitations. Apart from improvements in implementation technology, what is needed is to refine the HPC application development as well as the architecture of the future HPC systems. ECOSCALE tackles this challenge by proposing a scalable programming environment and hardware architecture tailored.

Requirements and Desired qualifications

A) One position of **Post-doctoral research associate (part-time:30 h/month**

Requirements:

PhD in Computer Architecture or related field

Desired qualifications:

Demonstrated research and experience in Reconfigurable Accelerators.

Demonstrated experience in EU-funded project activities.

B) One position of **Electronics and hardware design engineer (part-time:60 h/month**

Requirements:

MSc in Electronics and Hardware design or related field

Desired qualifications:

Demonstrated experience in bring-up of FPGA-based PCB's and Reconfigurable Accelerators

Demonstrated experience in EU-funded project activities.

Application Submission:

Interested candidates can submit their applications via <http://www.ics.forth.gr/jobs/en/> using the link "[Apply for the position](#)" under the announcement. Applications must include:

- Detailed CV, including qualifications and interests in the above areas, and proof thereof;
- Scanned copies of academic titles;
- List of at least two professional references

For information and questions about the advertised positions, the activities of the group, or the Institute, please contact Nikolaos Papadopoulos (nickpap@ics.forth.gr)

Selection Announcement

The result of the selection will be announced on the website of ICS-FORTH. Candidates have the right to appeal the selection decision, by addressing their written objection to the ICS secretariat within five (5) days since the results announcement on the web. They also have the right to access (a) the files of the candidates as well as (b) the table of candidates' scores (ranking of candidates results). All the above information related to the selection procedure will be available at the secretariat of ICS-FORTH in line with the Hellenic Data Protection Authority.
